Shesh Narayan Singh

Career Objective:

Experienced Assistant Manager with over 10+ years of experience in the manufacturing industry. I am very good at managing multiple priorities with a positive attitude. Willingness to take on added responsibility to meet team goals.

Job details: -

Present organization: VEHANT TECHNOLOGIES, NOIDA

Designation: Assistant Manager in Product Design & Development department (Dec-2020 to Current)

Responsibilities:

- Complete work on SolidWorks, design of components including new design considering requirement of customer, minimizing the cost, availability of material in market and reduces the process cost.
- 3D modelling of various designs of X-ray baggage scanner, UVSS, Human body scanner, Nano sniffer (metal detector) using software “SolidWorks”.
- Detailing and drafting of components as per design.
- Calculations works like load calculation, stress, displacement etc. on solidworks simulation.
- Segregating and ordering the standard bought out products used in projects.
- Design release & BOM creation using ERP with the complete verified documents and distribution to various departments, costing, material addingand deleting into ERP.
- Complete responsibility of new development projects into the AAI (airport authority of india). Work on simulation for various load, forces, stresses etc.checking.
- Work as per the understanding of priorities bases and coordinate with the various departments to make the production high.

Project Handled:

- Developed People Body Scanner,150180 & 180180 Cargo scanner, IP 65 rated PLC & Monitor Enclosure box.
- Developed Xray baggage scanner 6040DV, 6040SV, 6040 SV3D model.
- Developed Xray baggage scanner 100100LBDV, 100100H model.
- Developed UVSS (under vehicle scanning system) portable.
- New development of Nano Sniffer.

Software Exposure:

- Solid Works
- Solid works Simulation
- Auto CAD
- ERP

Previous organization: 1 - ECE INDUSTRIES LTD

Designation: Mechanical Design Engineer in New Development department (Oct-2018 to Dec-2020)

Responsibilities:

- Design of components including new design considering requirement of customer, minimizing the cost, availability of material in market and reduces the process cost.
- 3D modelling of various complicated designs of elevators using software “SolidWorks,AutoCAD”.
- Detailing and drafting of components as per design.
- Calculations work like load calculation, stress, displacement etc. on solidedge simulation.
- Solved field issues as per the requirement and make the erectiondrawings also for better understanding for field person.
- Design release & BOM creation using ERP with the complete verified documents and distribution to various departments, costing, material addingand deleting into ERP.
- Complete responsibility of new development projects in the elevator field. work on simulation for various load, forces, stresses.

Project Handled:

- Projects in the new development department to make standardization of the lifts of various categories and create the new development for the best.
- Developed the T3 safety design used in elevators.
- Working on design of sheet metal panels of the elevator considering the strengths of the panel also.
- Design of the COP (Car operating Panel & LOP (Landing operating panel) in elevator and standardized it.
- New development of arrangement of top yoke into the MRL (MACHINE ROOM LIFTS).
- Participation into the exhibition lifts held in Delhi as “ACETECH”
- Standardization of the freight elevator (High-capacity lifts).

Previous organization: 2 - HITCO Electricals Pvt. Ltd.,Noida

Company Profile: HITCO is a valued name in the Heater ManufacturingIndustry offering a wide range of heaters forIndustrial, commercial and domestic heating.

Designation: Mechanical Design Engineer (Apr-2016 to Sept-2018)

Responsibilities:

- 3D modeling of injection machine barrel layouts using software "SolidWorks,AutoCAD”.
- Detailing and drafting of components.
- Ordering standard bought out products used in projects.
- Design release & BOM creation, item code creation of heaters using ERP, costing, material adding and deleting.
- To meet requirements such as cost reduction, compatibility, product improvement.
- Plan priorities, delegate and execute design.
- Design to comply with customer specifications.
- Coordinating of the departments responsible for production.

Educational Qualifications

M.Tech (Design Engineering)	Birla Institute of Technology And Science, Pilani (BITS Pilani)	2023-2025	66%
B.Tech (Mechanical)	ITS Engineering College Greater Noida (AKTU)	2012-2016	66%
Intermediate	Modern Inter college Balrampur (Uttar Pradesh)	2011	69%
High School	Modern Inter college Balrampur (Uttar Pradesh)	2009	65%

Co-curricular Activities and Achievements

- Got a certificate as a volunteer in ARIMPIEE 2015.
- Certified at CETPA INFO TECH 2014-15.
- Certified at TECHTRIX 2014.
- Got a certificate as a volunteer in Quiz Whiz 2015-16.
- Got Quaterly award 2024-25 for cost consciousness & optimization in vehant tech.

Personal Information

Name	: Shesh N. Singh
Father Name	: Awdhesh Pratap Singh
Date of Birth	: 15/02/1995
Gender	: Male
Marital Status	: Unmarried
Nationality	: Indian
Languages known	: English, Hindi.

Declaration

I consider myself familiar with Mechanical Engineering. I am also confident of my abilityto work in a team. I hereby declare that the information furnished above is true to the best of my knowledge.

Place: Noida U.P (Shesh N. Singh)
